

## Hugo van Dorsser

### The artist:

Hugo van Dorsser chose Dunedin as his base after graduating in 2016 with a degree in Communication Art & Design from the Design and Arts College (Christchurch); where in his final Year was awarded 'Student of the Year'.

One of Dunedin's new-breed artists, Hugo's work has a unique and personal aesthetic. It is his take on a 'moment in time' depicted through mixed mediums. He tells an entropic story of chaos in human nature, living in the city environment and struggles with mental illness.

Hugo's work aims to create an emotional response from the viewer based on how they see it, through what is happening in their life.
